

**LEADING MANUFACTURER
OF ORIGINAL AND PRACTICAL
COMMERCIAL STALLS FOR THE
POLISH AND EUROPEAN MARKETS!**

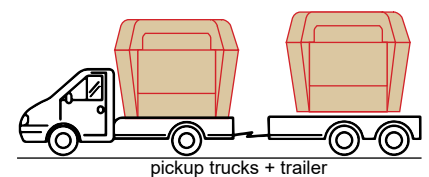

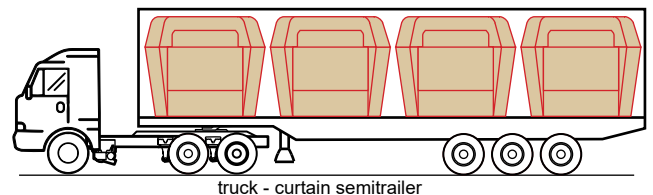

Profi Box 
solid for years!

- We produce SALES STALL for selling fruit, vegetables, ice cream, bread etc.
- The kiosk is made of polymer composite materials (so-called laminates) used to build boats.
- High quality and durability of the material combined with aesthetics and the possibility of giving almost any color to our BOXes - allows it to fit into any environment.
- Our BOXes will be a great help in your business development (reducing costs related to with the rental of premises, high mobility of the kiosk and the possibility of placing it in the busiest place).

Profi Box Stall Benefits:

- Made from material characterised by good resistance to all weather conditions
- anti-corrosive, UV light resistant
- maintenance-free after the season
- colour of the stall made upon client's request
- bespoke graphic design for client's individual needs (using durable Vehicle Wrap Laminates)
- The box is easy to load and unload thanks to the heavy duty hooks (for Hydraulic Truck Crane) on the roof.
- allows for easy and safe transport using forklift truck (the guides for the forks are located under the stall's floor)
- shelves with height adjustment
- lockable drawer under the main counter

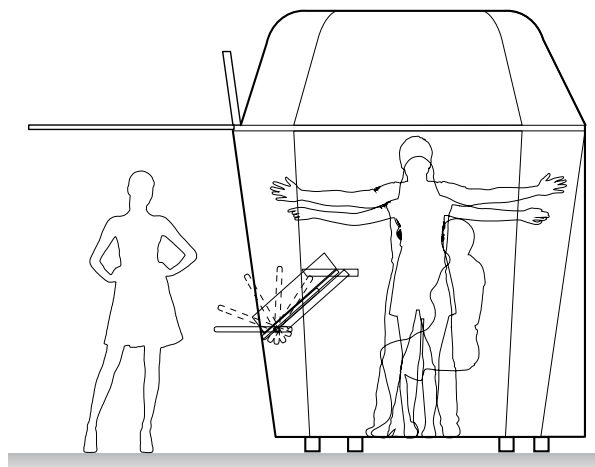

Additional Information:

- Floor and wall reinforcement system
- slip-resistant flooring
- Fittings and locks made of stainless steel
- Weight 350 kg

Comfort of Usage:

- We took care of the ergonomic interior design maximising the usable space area
- We took into consideration the convenience of both the seller and the buyer.
- We have refined the Profi Box closing and opening system to be quick, easy and convenient
- doors on both sides of the stall facilitate its positioning and improve the comfort of use
